Bartosz Manowski

Front-end Developer

I would like to explore **Node.js** as a backend environment because I'm a **JavaScript** fan and I associate my future with this technology.

## Experience

01.03.2019 - current

### Front-end Developer

TrustMate  
www.trustmate.io

Develop user's dashboard using: **React.js, Redux, API, Twig and Nunjucks**. Designing graphics and websites in tool **Figma**. Methodology of workflow in the project has been initially **Kanban** and later was **SCRUM**.

01.09.2017 - 01.03.2019

### Front-end Developer

MoreFromIT  
www.morefromit.com

Creating web applications based on mocks, provided by a team of graphic designers, with care for **Responsive Web Design** using **Vue.js, Nuxt.js** and **API**. I was developing two projects and consulting changes directly with the client. Implementation of **SEO** processing tools.
